

# Environmental Policy

## Basic Philosophy

We will strive to conserve resources and protect the environment.

We will work to develop and promote technologies that strike a balance between the environment and the economy. Through our business activities, we will aim for the growth of a society that is in harmony with the natural environment.

## Basic Policy

1. We will manage all CO2 emissions generated by our business activities and will work to realize a carbon neutral society.
2. We will comply with environmental laws, regulations, industry standards and other requirements, and will not cause environmental pollution.
3. We will strive to reduce environmental impact and conserve the global environment through our core business activities.
4. We will disclose information about our environmental initiatives and achievements to stakeholders through our website and other means to deepen mutual understanding.
